*Michael, originally from Tucson, Arizona, moved to Seattle recently to further pursue his love of technology, in a city where it is showcased regularly. Michael has spent the past 8 years working in Microsoft Server environments, utilizing and incorporating such features as Exchange, SQL, IIS, and other various proprietary software associated with the businesses he has serviced. Michael has managed a team of technicians to maintain operations for various businesses, and has spearheaded various integration and migration projects, creating new advantages for businesses venturing into the world of technology. Along with integration of new technology, Michael has provided support and engineering projects for businesses involving upgrades to physical infrastructure such as retrofitting coaxial and category cabling for high-speed intranetwork operations. Currently, Michael manages the intricate systems housed at Martens + Associates | P.S., and maintains a strict security standard for all information systems associated with the practice. In addition to serving as the firm's CTO, Michael also assists in paralegal tasks.*

*Michael is also a family man; he spends as much time as he can with his wife and two sons, whether playing at the park or getting them started early with sports. He also enjoys a variety of activities outside of technology, such as motorcycles, sports, and fantasy football.*
